DESCRIPTION

Dafocom Solutions Inc. has been manufacturing fibre optic assemblies since 1988. We only use the highest quality connectors and cable which enable us to produce only the highest quality products. All of our products are serialized, inspected and quality tested. Test results are kept in house for future reference. Upon request , Attenuation and Return Loss test results are

provided for single-mode patch cords and pigtails at no extra cost.

Most popular connectors are in stock, allowing us to respond immediately to special request for custom made length and hybrid type assemblies.

We only offer best Quality for best Value.
